

# Green Thursdays

**Fitchburg Public Library • Free • 6:30 -- 8:00 p.m.**

September

4

*Gasland 2* challenges gas industry portrayals of natural gas as a clean, safe alternative to oil. Fracked wells inevitably leak, contaminate water and air, hurt families, and endanger climate with potent greenhouse gases.

October

2

*Genetic Roulette.* Evidence points to genetically modified (GM) foods as major contributors to rising rates of disorders, allergies, diseases, infertility, and other health problems in humans, especially children.

November

6

*If a Tree Falls.* Academy Award®-nominated film about the radicalization of an environmental activist, from his working with the Earth Liberation Front to being arrested by the FBI and incarcerated as a domestic terrorist.

December

4

*Unwasted: The Future of Business on Earth.* Businesses produce nearly as much waste as they do product. Disposal, recycling, and composting are costly, but what is the real cost to business and the community?

**FITCHBURG**  
PUBLIC LIBRARY

Green Tuesdays & Thursdays are brought to you by The Natural Step Monona in collaboration with nine community partners, including the Fitchburg Public Library.

See the calendar at [tnsmonona.org](http://tnsmonona.org).  
Free popcorn!
